

Detergent Based Concrete Removers / Cleaners

Ankem's Bio-Clean Line ranges from strong to mild varying from rootbeer scent to fresh mint. Others try to copy our famous line but cannot match Ankem's 35+ year industry experience or our specialized concrete industry knowledge. This top performing line allows our customer the option of moving up or down the product strength scale if their cleaning situation changes while staying with a brand and product that is familiar. All of the Bio-Clean formulas contain biodegradable detergetns, biodegradable surfactants and corrosion inhibitors thus making the Bio-Clean line a highly sought after product line.

BIO-CLEAN EXTRA

BIO-CLEAN

BIO-FOAM

BIO-CLEAN LITE

BIO-CLEAN LITE (Non-Corrosive)

800-527-7615

BIO-CLEAN EXTRA- A Strong-Medium Concrete Remover/Cleaner that removes a little more than 1/8" of buildup. One of our Neutralizers are recommended after use of this product. This product can handle heavy buildup almost like the Reverse A Crete line although is Non Fuming. Root Beer Fragrance, Light Amber in color.

BIO CLEAN- Our original Medium Concrete Remover/Cleaner that removes about 1/8" of buildup. Product works great for occasional washers that want a safer alternative to strong acid products but still need some power. One of our Neutralizers are recommended after the use of this product. Root Beer Fragrance, Light Amber in color.

BIO FOAM- Same great formula as Bio Clean only we add our special foaming additives to make a super high foaming product. Root Beer Fragrance, Amber - Light Brown in color

BIO CLEAN LITE- This Mild product contains a blend of several organic acids. Designed for a more regimented cleaning program and is not recommended on heavy buildup. Removes about 1/16" of buildup. Mint Fragrance, green in color.

BIO CLEAN LITE (Non Corrosive)- This is the mildest in the line and is a very Mild product designed for a daily cleaning program. Bio Clean Lite (Non Corrosive) is not designed for heavy buildup and is more for a light film. Fresh Mint Fragrance, green in color.

RECOMMENDED CORRESPONDING ITEMS:

972012 2 valve water systems:

Automatically dilutes up to two products (acid wash/soap neutralizer) while applying the products directly onto equipment.

208 Proportioner:

Drum mounted proportioner automatically dilutes concentrate with water and dispenses the diluted solution into the cleaning bucket.

2 AS Acid Sprayer:

This sprayer is excellent to get into those hard to reach areas. Two gallon capacity. Replacement Parts Kit also available.

412L Gloves:

Green Double Dipped Safety Gloves provide excellent protection while not being overly cumbersome.

#875 Glasses:

Economy Clear Safety Spec Glasses provide great splash protection.
